Numeracy Assignment for Grades 1 & 2

Choose 3 or more objects to measure, using the length of your hand as the unit of measurement. Which object is the longest? Which object is the shortest?

Extension

Add all 3 (or more) lengths together. What is the sum?

Draw a picture of each object. Include the number of hands long each object is along with the answers to which one is the longest and which is shortest.

OR

Take a picture of each object. Write down how many hands long each object is along with the answers which is the longest and which is the shortest questions.

Ex. The car is 15 hands long. My bed is 8 hands long. The couch is 9 hands long.

Please upload your pictures or drawing to the assignments tab on your teacher's team page by Friday, April 17th.

Thank you,

Ms. MacLeod, Mrs. Harrison, Ms. Hnatiw
